Front End Engineer

I am an accomplished Front End Engineer with over 17 years of expertise in modern web technologies. My passion lies in crafting well-engineered, accessible, and engaging web applications that adhere to industry standards. Throughout my career, I have consistently delivered user-friendly web interfaces that meet and exceed expectations.

WORK EXPERIENCE

RVO Health • Fort Mill, SC/Remote/Hybrid • 01/2021 – 01/2023

Collaborated with a leading regional healthcare provider to develop and manage a healthcare hub, facilitating patient-physician connections. Transferred an existing VueJS codebase to Nuxt JS, resulting in enhanced SEO visibility, utilization of contemporary tooling, streamlined developer experience, and improved application build/runtime performance. Engaged with business teams to gather project requirements, liaised with backend teams, identified areas for enhancement, and delivered technical solutions within specified timelines.

Senior Front End Engineer

- Collaborated with a leading regional healthcare provider to develop and manage a healthcare hub.
- Transferred an existing VueJS codebase to Nuxt JS, resulting in enhanced SEO visibility and improved application performance.
- Engaged with business teams to gather project requirements and deliver technical solutions within specified timelines.

Red Ventures • Fort Mill, SC/Remote/Hybrid • 01/2016 – 01/2022

Contributed to diverse verticals within a dynamic corporate setting, spearheading the development of innovative web applications. Led the creation of an e-commerce platform catering to prominent telecommunications firms in the United States. Revamped a legacy React codebase by migrating it to Next JS, streamlining the developer experience, minimizing unnecessary dependencies, and addressing complex Redux state management challenges.
